(May 20, 2022)

The United States Postal Service (Postal Service) hereby gives notice of filing errata to the Postal Service's notice filed in this docket on April 22, 2022 (Notice).¹ The Postal Service is filing revised versions of the Postal Service's internal Service Performance Measurement (SPM) Plan document (in both "clean" (blackline) and redline formats) as Postal Service Library Reference USPS-LR-PI2022-3-2.

On April 22, 2022, the Postal Service filed its Notice to notify the Postal Regulatory Commission (Commission) of changes to the Postal Service's SPM Plan. On April 26, 2022, the Commission issued an Order that, among other things, established Docket No. PI2022-3 for the purpose of considering the Postal Service's proposed modifications to its market dominant service performance measurement systems.² Between May 17 and 19, several parties, including the Public Representative (PR), filed comments in response to the Postal Service's Notice and the Commission's Order.³ In his comments, the PR identified an isolated clerical error in the revised SPM

³ Today, following the conclusion of the comment filing period, the Commission issued an order that, *inter alia*, provides participants with an opportunity to file reply comments in this docket

Plan submitted as Postal Service Library Reference USPS-LR-PI2022-3-1. On page 47 of the redline and page 48 of the blackline version of the revised SPM Plan, the reference to section 10.3 should have referenced section 10.7. This notice and the revised version of the Postal Service's SPM Plan filed as Postal Service Library Reference USPS-LR-PI2022-3-2 address this comment. The minor correction appears on page 47 of the redline version and page 47 of the blackline version of the revised SPM Plan. The Postal Service regrets the inconvenience the errata may cause, but does not believe any party is prejudiced by the correction in this notice.

Respectfully submitted,
